RapidAuditor

Automate your audit management processes

Rapid Auditor is a system to automate audit management. It allows you to register tasks, automate reminders and complete audits and inspections from any device.

Free support

Our Client Services Team are ready to help with your technical questions and to ensure you get the most out of your Rapid products.

Digitalise, streamline and customise your audit process

Rapid Auditor empowers you to manage the entire audit lifecycle with ease.

Audit checklists	Customise and create unlimited audit checklists.
Categories and Groups	Customise your categories and subcategories to easily identify and group your audits.
Audit attachments	Attach relevant documents such as policy documentation, photos and other files to support your findings.
Manage multiple audit types	Build your own custom forms into the system and attach to multiple audits.

Manage and track your audits online

Register tasks, automate reminders and complete audits and inspections from any device.

Schedule and plan audits in advance	Comprehensive scheduling functionality.
Assign and track audit tasks	Allocate, track and review tasks, audits and assign actions to responsible person/s with set expiry dates.
Conduct audits from multiple devices	Conduct audits from multiple devices, using unique asset QR codes to streamline the process.

Fully integrated modular workforce management software.

Customise reporting to your business

Fully customisable reporting capabilities to streamline your audit management process.

Customise reporting requirements	Summary reports can be sent out daily, weekly and monthly.
Centralised data dashboard	Easily view the audit status in the dashboard with charts to see a visual representation of all real-time data in the system, and export to Excel for further analysis.
Filtered data exports	Filter data and export it to Excel, including audit reports and asset management.

Seamless integrations

Rapid's native and third-party integrations allow all your tools to work seamlessly together to automate and streamline your workplace safety and risk management processes.

| **Induction training**	Ensure contractors are trained, inducted and compliant before they arrive onsite with Rapid Induct.
Site access control	Check-in and screen contractors and sub-contractors on arrival to ensure only compliant and authorised contractors gain entry with Rapid Access.
Issue work permits	Issue and validate work permits for contractors with Rapid Permit To Work.
Third-party applications	Rapid uses RESTful API, allowing your business to access data and seamlessly integrate with your existing third-party software solutions.

Fully integrated modular workforce management software.

Enhanced data privacy and security

Protecting your company's information is our highest priority. Rapid's information systems are ISO 27001 certified which demonstrates our commitment to industry standard protocols to safeguard your sensitive information.

ISO 27001 certified datacentres	Our data centres are committed to meeting the highest standards of information security and are ISO 27001 certified.
Encryption	The latest encryption methods are applied to prevent unauthorised access to data while at rest and in transit.
Comprehensive access controls	Built with comprehensive "permissions based" access controls which allow company administrators full control on who has access to your highly sensitive personal information and documentation.
Two-factor authentication	Powered by the Google Authenticator app, two-factor verification (2FA) provides an additional layer of protection, helping to secure your account against password breaches, keylogging, and other cybersecurity threats.

Tailor the system to meet your exact business requirements

The software can be intelligently adapted to suit the requirements of your business. Our experienced team will configure the platform specifically to match your business needs.

Smooth product upgrades	Benefit from latest features and enhancements as soon as they become available.
Settings for advanced users	Fully customise your package with access to a wide range of helpful features and settings to fit your requirements.
