

Audit Management Made Easy!

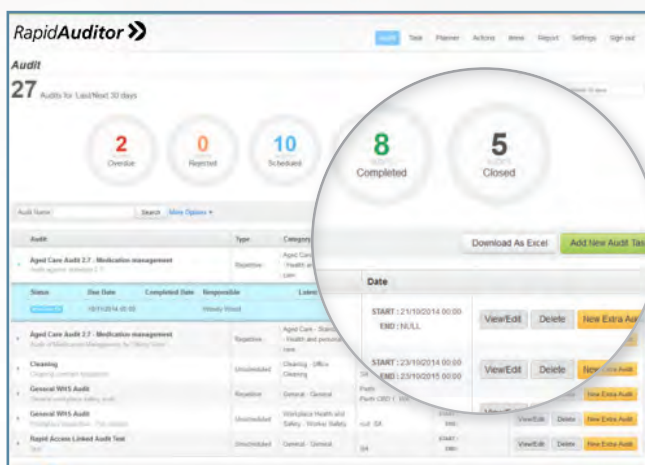

What Is Rapid Auditor?

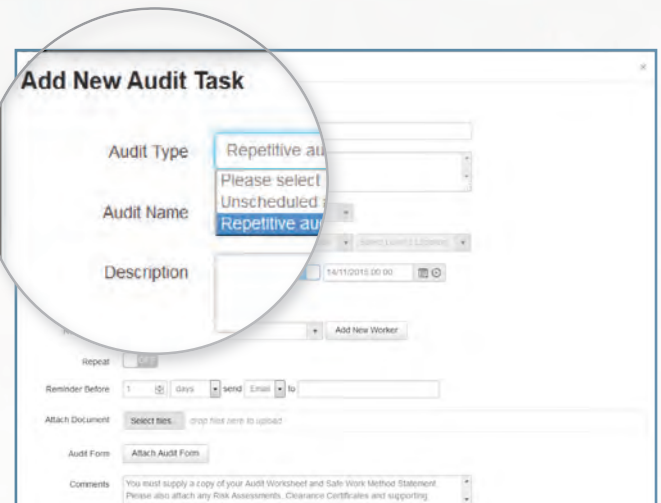

Rapid Auditor is an online audit management tool that allows you to create, schedule and complete audits from any computer or mobile device with internet access. A tool to create and schedule audits or inspections, Rapid Auditor is your simple and fast interface for managing the entire audit lifecycle.

Rapid Auditor saves your business time and money by ensuring compliance across all areas being audited. Rapid Auditor makes it easy to manage audits and inspections by streamlining the auditing process, from planning audits to identifying non-conformance and ensuring corrective and preventative actions are completed.

Essential to reducing risk, audits are a central part of a sound safety management system. By reducing the complexity of the audit process, Rapid Auditor is an end to end solution for managing the complete audit lifecycle.

Rapid Auditor Dashboard

Create Audits Instantly

Features

- All audit types able to be configured including environmental, quality, internal audits, operational audits etc.
- Intuitive dashboard to display overdue and scheduled audits at a glance
- Email notifications to management and workers throughout the auditing process
- Create annual audit plans to schedule regular audits
- Record initial assessment results and assign corrective actions
- Fully configurable to your organisation's locations, departments and audit categories
- Ability for workers to add action items with managerial approval
- Automatic reminders to assign scheduled audits
- Built in tools and features to create your own audits with checklists and variable question types
- Configure the workflow to automate the review and approval process
- Conduct audits in the field using your iPad or smart phone
- Notes able to be added by workers or auditors for recommendations to management
- Time tracking, email notification and alerts
- Multiple auditors, users and workers can be added to conduct audits and complete tasks
- Attach reference documents and guidelines to audits

Benefits

- Plan and schedule audits in advance to ensure compliance. Never miss an audit again!
- Complete audits and checklists remotely from any location using your handheld mobile device
- Store and manage your audit information in one secure and easy to use system
- See your audit data at a glance using the intuitive dashboard
- View pending and overdue tasks
- Visibility at all levels of management. Variable permissions according to hierarchy
- Closes the loop in the audit cycle to ensure effective management of audit findings, corrective actions and management review
- Executive management provided with complete visibility of audit data to allow for transparency in the audit process
- Provides full control over your audits and inspections. Adapt and configure fields as required
- Enables areas of non-compliance to be instantly viewed
