

Software that helps you get on with the job.

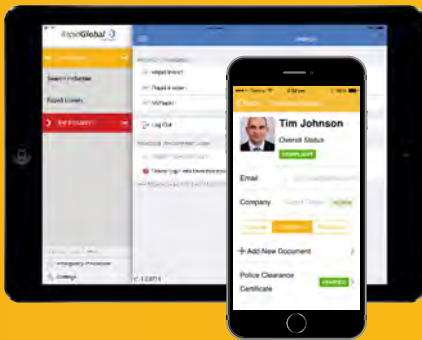

What Is Rapid Induct?

What if you could get your employees and contractors trained, compliant, inducted and on the job faster? You can with Rapid Induct from Rapid Global.

Rapid Induct is an award winning online learning management system for the creation and delivery of online induction and training courses for employees and contractors. The customisable system is fully hosted and accessible from any internet enabled device or computer twenty four hours a day, seven days a week.

Rapid Induct is ideal for businesses of all sizes in all industries with employee and contractor training and induction management needs. Businesses with multiple sites especially benefit from the system's ability to remotely induct and train a workforce. Rapid Induct is the software solution to help you meet your legal requirements for compliance.

Some of the world's largest companies and institutions like Ford, Mondelez and Boeing Aerostructures Australia already rely on Rapid Induct to induct and train their employees or contractors. From mining and property management to health care and education, Rapid Induct is fully customisable for any business category or industry.

Best of all, Rapid Induct puts you firmly in control of your content. Edit your courses, add modules, create questionnaires, checklists or surveys and change images using the easy to use editing controls.

Rapid Induct is simply the most reliable and efficient way of getting the right people on the right job at the right time.
