

Meet compliance requirements by reporting incidents easily and quickly

rapidglobal.com

Effectively manage the incident lifecycle within any workplace

Perfect for businesses of all sizes and from all industries with incident management needs

Rapid Incident Reporting is an online, fully hosted incident reporting and management system that empowers you to handle and track the lifecycle of the incident. The system enables anyone to report an incident as soon as it occurs simply by using any device with internet access.

“

Rapid Incident Reporting has enabled the notification and provision of incident details to be streamlined into one operation. It has also streamlined the production of performance information that is included in project tenders.

”

QHSE Manager, Australian Camp Services

Enable anyone on site to report an incident

Never miss a beat when it comes to safety compliance with the system that allows anyone from within the business to report an incident. Staff and visitors can report an incident or injury in real-time from any device with internet access. Management is notified instantly using the incident notification system.

Report any incident type

Fully customisable for any business category or industry, Rapid Incident Reporting can be used to record all incident types including injuries, environmental problems and quality issues.

Record all relevant aspects of the incident

Tailor your incident reporting form to ensure the details relevant to your company are captured. Fill out preliminary details at the scene on your own mobile device and complete the report at a computer later.

Increase productivity with Rapid solutions

“

The database has streamlined our internal method for reporting incidents and completing investigations. Our favourite feature is that we can attach all incident-related information like SWMS, induction records, photos etc. to that incident file. This is extremely beneficial when we demonstrate our reporting process to external auditors.

”

Maria Hooker, National WHS&E Manager, Allied Pinnacle

- ✓ Capture data and transform it into meaningful reports
- ✓ Improve your business' ability to investigate, gain insights and implement corrective actions
- ✓ Protect workers on the job and support them in case of an incident
- ✓ Enable anyone on-site to report an incident

View all documents related to the incident in one place

Attach documents to the report such as photos from the time of the incident or other related information. Suggest preventative or corrective measures and assign to someone for follow-up.

Generate related reports

Create custom reports displaying incident types, department statistics, time for incident close out, and so on. Reduce the number of incidents by centralising incident reports that provide insight into the safety record of your business.

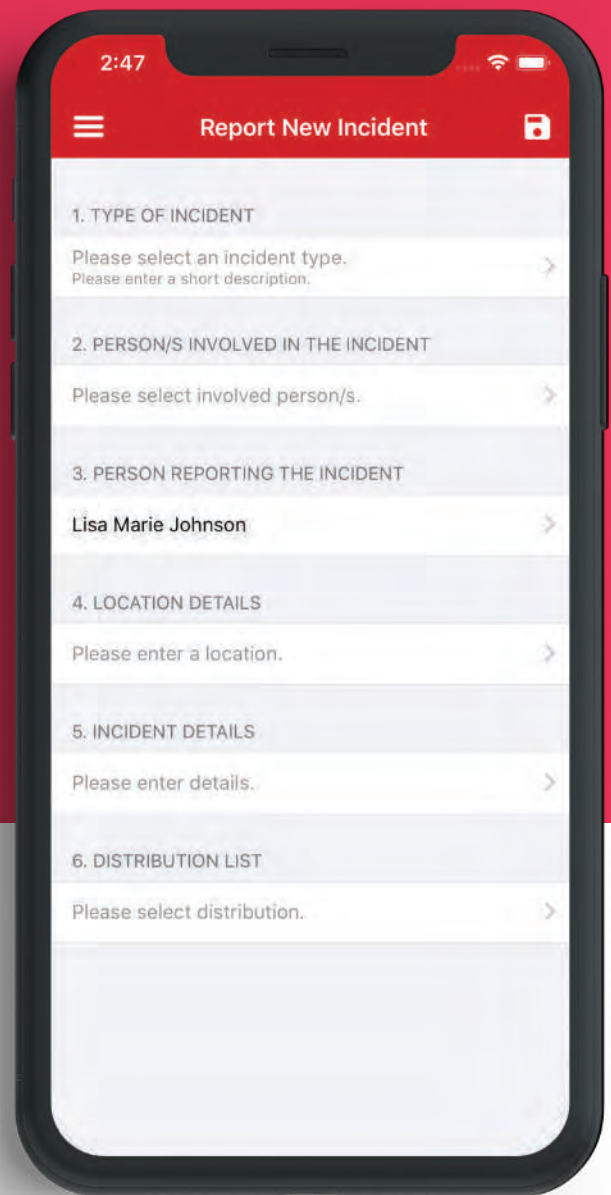

Manage the full incident lifecycle

From investigation to reporting on statistics, Rapid Incident Reporting ensures the lifecycle of the incident is completed. Auto-notifications are sent to relevant personnel regarding the incident investigation and corrective actions.

Gain Efficiency Through Our Admin Tools App

Rapid Global Admin Tools App

Use this app to create a new audit or view an existing one. Enter the details of the assignee and automatically schedule reminders to be sent to them, all from your mobile or tablet device.

Go Further

Rapid Incident Reporting is a powerful tool on its own and is even better when integrated with Rapid's full suite of solutions.

RapidInduct

Enable your personnel to complete inductions and training on their phone, view and update their licences and documents and access their ID card and QR code.

RapidAccess

Sign in all types of visitors to your site. Keep an online, real-time record of all personnel on-site. Send automated text messages warning all to evacuate in an emergency.

RapidPermit to work

Gain control over high-risk activities and meet workplace safety regulations. Submit, approve and track work permits online.

RapidAuditor

Rapid Auditor allows you to register tasks, automate reminders and complete audits and inspections from any device.

RapidContractor Management

Efficient contractor lifecycle management system. Ensure only fully compliant companies can have contractors inducted and approved to work on site.

RapidRisk

Rapid Risk is the one central location to report, store and follow up on all your company's risks.
