“

Rapid basically reduces the work I have to do by 90% as once I add the details of the new cleaner onto Rapid Induct, I no longer need to do anything else besides check if they've done it. We are able to find information we need more quickly and actually have all the records we need, thus improving our compliance dramatically.

Increase productivity with Rapid solutions

“

Originally, we looked at the cost of producing an induction booklet including printing, binding, distributing and signing off etc. Then we looked at it in comparison with Rapid Induct and saw there was a massive cost difference between the two. We chose to use your systems and have saved an astronomical amount of money as a result.
