

Simplify your safety induction and training processes

Have your employees and contractors trained, compliant, and on the job faster with our award-winning online induction and training software. With streamlined onboarding and compliance steps Rapid Induct makes training and inducting your workforce simple.

Free support

Our Client Services Team are ready to help you with technical questions and ensure you get the most out of your Rapid products.

The new way to induct your workforce

Streamline your onboarding processes and empower your operations team with a cloud-based induction and training software.

Unlimited courses	Fully customise your courses to your brand. Supplement your course library with Rapid's free pre-written courses or simply upload your pre-purchased SCORM courses.
Respond faster	Easily assign tailored courses to different employees and contractors based on their job role, location or site.
Tailored assessments	Create tailored forms and assessments to test inductee comprehension.
Certificate builder <small>NEW</small>	Give your employees the recognition they deserve with professionally designed certificates. Easily create custom certificates in minutes.

Enhanced onboarding experience for your workforce

Empower your inductees to meet and maintain their compliance obligations with a seamless onboarding and training experience.

Dedicated training portal	A user friendly, online training portal tailored to fit your brand where your inductees can login and complete their courses when it suits them on any internet enabled device.
Rapid Induct Premium App	Inductees can view and update their documents, complete their inductions and more. Available for Android & Apple iOS
Online resources	Access a library of support content to help your trainees get the most out of Rapid's feature rich software.
Automated alerts	Automatically notify inductees of for expiring licenses, certificates or when their refresher training courses are due.

Fully integrated modular workforce management software.

Increase data privacy and security

Protecting your company's information is our highest priority. Rapid's information systems are ISO 27001 certified which demonstrates our commitment to industry standard protocols to safeguard your sensitive information.

ISO 27001 certified datacentres

Our data centres are committed to meeting the highest standards of information security and are ISO 27001 certified.

Encryption

The latest encryption methods are applied to prevent unauthorised access to data while in transit and at rest.

Comprehensive access controls

Built with comprehensive, permissions-based access controls which allow company administrators full control on who has access to your highly sensitive personal information and documentation.

Two-factor authentication

NEW

Powered by Google Authenticator app, two-factor verification (2FA) provides an additional layer of protection, helping to secure your account against password breaches, keylogging, and other cybersecurity threats.

Seamless integrations

Rapid's native and third-party integrations allow all your tools to work seamlessly together to automate and streamline your workplace safety and risk management processes.

Contractor management

Ensure contractors are compliant with valid insurances & documentation with Rapid Contractor Management

Site access control

Check-in and screen all site attendees on arrival to ensure only compliant and authorised personnel gain access your sites.

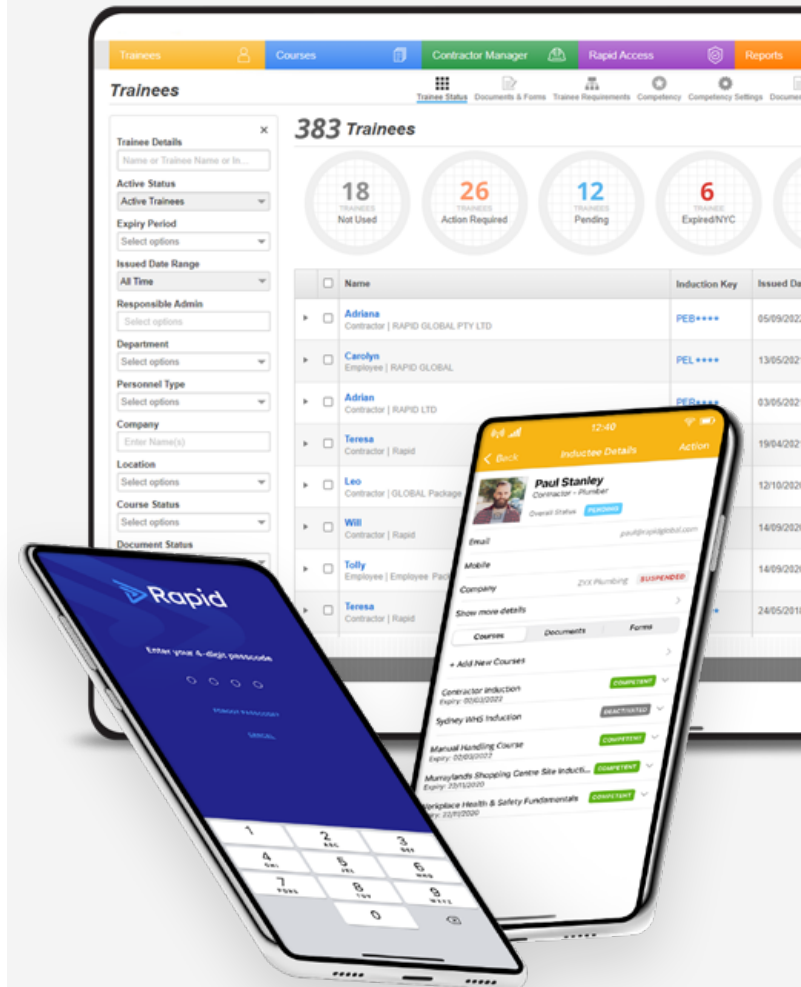

Issue work permits

Issue and validate work permits with Rapid Permit To Work.

Third-party applications

Rapid uses RESTful API, allowing your business to access data and seamlessly integrate with your existing third-party software solutions.

Fully integrated modular workforce management software.

Access compliance data from anywhere, at any time

Enjoy the assurance of knowing the status of every employee and contractor through Rapid's live dashboards and reports.

Centralised document storage

Collect, verify, and automatically track course completion dates, expiry dates of assessments, certificates, and licences.

Automated reports

Monitor training status of your workforce through a single dashboard. Generate site specific graphs and set automated weekly/monthly reports.

Tailor the system to meet your exact business requirements

The software can be intelligently adapted to suit the requirements of your business. Our experienced team will configure the platform specifically to match your business needs.

Smooth product upgrades

Benefit from latest features and enhancements as soon as they become available.

Settings for advanced users

Fully customise your package with access to a wide range of helpful features and settings to fit your requirements.
